Vertical Manual with Winch
Mesh / Blackout / Filtering

- Suitable for:** Window and french door
Operation: Manual with winch, stop at any point
Cassette: Self-supporting and inspectable
Handlebar: With anti-insect brush
Mesh: Fiberglass, Strip with zip closure for wind resistance
Fastening System: Clips (snap-on supports), Screw/plug

ON REQUEST
Fabrics: Filtering/Blackout

NOTE: To ensure proper functionality, fabrics of large dimensions may, where necessary, have micro-welds at connection points in the longitudinal direction. The product's peculiarities include the potential formation of small wrinkles at the welding points between the zip fastener and different fabrics, as well as possible misalignment, which should be considered features and not defects.

	Misure consigliate (mm)	
	Width	Height
max mesh	5000	3500
max blackout	4400	3000
max filtering	4400	3000
